HOBBIES AND INTERESTS

Guitar Playing Guitar playing is one of my main hobbies. I enjoy experimenting with different techniques and sounds, often drawing inspiration from artists like Jimi Hendrix and Jonny Greenwood.

Music Music plays an important role in my life. I enjoy discovering new artists and exploring albums in depth, especially within psychedelic rock—both from the 1960s and contemporary scenes. Some of my favorite artists include Radiohead, Jimi Hendrix, TOOL, The Smashing Pumpkins, and X JAPAN. I'm particularly drawn to music that experiments with sound and atmosphere.

Literature I spend a significant amount of time reading, with a strong interest in literature that explores the human psyche. This is why Fyodor Dostoevsky is my favorite author.

Weightlifting Weightlifting is one of my regular activities. I focus on building strength and maintaining consistency, treating it as both a physical and mental discipline.
